

TRAMEV COILS GRIPPERS

NEWS 2011

Suitable for internal gripping of coils with vulcanized jaws

CE

CODE	COILS HOLE (mm)	LOAD CAPACITY (kg)
PZ400TR	440-650	3000
PZ600TR	540-750	3000
PZ900TR	750-1000	4000

Technical details :

This gripper has been realized to have a reduced structural weight; made of steel and having a very high yield point. Both jaws are long enough to grip one coil at a time. The two jaws are covered in poliurethanic material or similar, they are vulcanized and resist to at least 100 grippings. The release device has been widely tested in order to guarantee perfect functioning. The equipment is yellow painted, RAL1021, as per specifications and it is supplied with CE identification label, with user's and maintenance handbook, and with declaration of conformity, realized following equipments directive.
