MACHINES
AND EQUIPMENTS
FOR WIRE AND
CABLES INDUSTRY

SHEARS WIRE DIVISION

The Tramev shears line offers a full range of portable tools for cutting, straightening or bending of metal wire, allowing a fast and effective solution to the problems related to wire, cable, strand, bolts and nuts.

SHEARS WITH BATTERY ...

are equipped with the best batteries and can cut wire up to 20 mm and straighten wire up to 32 mm.

PORTABLE ELECTRIC SHEARS 230V ...

to cut wire up to 32 mm and straighten wire up to 40 mm.

SHEARS WITH POWER PACK ...

for heavy and repetitive work can cut and straighten wire up to 52 mm.

RC-16

MU16/S

T32N

TRBN32

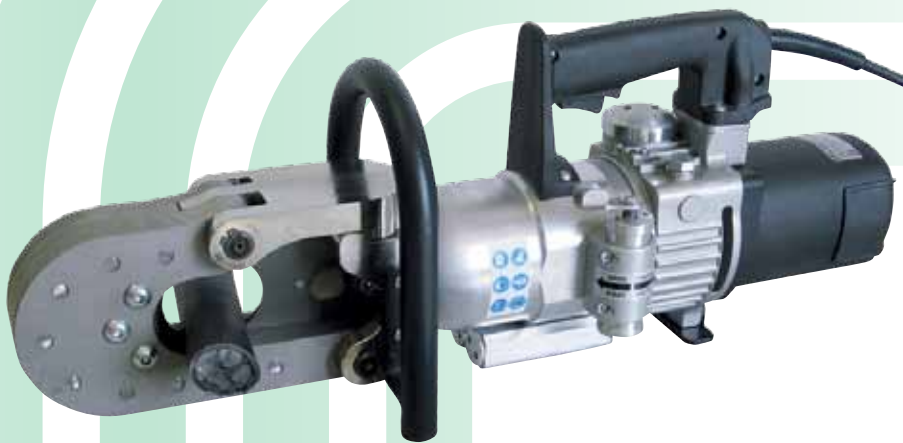

SHEARS CABLE DIVISION

F145N

A complete range of double-acting cable and rope cutters up to 180 mm.

- Double Acting (100% no-jamming system)
- safer than grinding
- compact, lightweight, fast, reliable
- they work in every position
- blades can be re-sharpened.

TC55F42DE

SHEARS WITH BATTERY...

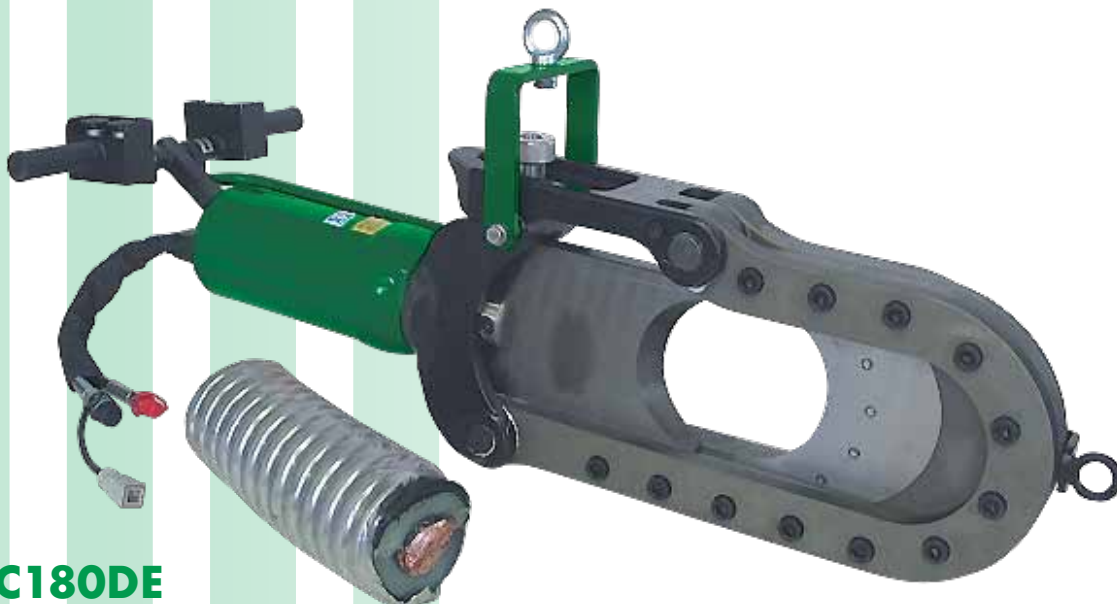

are equipped with the best batteries and can cut cables up to 130 mm.

PORTABLE ELECTRIC SHEARS 230V...

to cut cables and ropes up to 55 mm.

SHEARS WITH POWER PACK ...

for heavy and repetitive work can cut cables and ropes up to 180 mm.

UNWINDERS

Tramev produces since 1977 decoilers, pay-off and motion devices for hanks and swift for wire rod and drawn wire.

We have experience in drawing workshops, nuts and bolts and chains production and are therefore able to solve any problem arising from unwinding, stocking and moving or transport.

We produce both standard and special devices depending on your request, to improve productivity and to rationalize stocking spaces and loading of hanks.

IN-LINE WIRE DRAWING MACHINES

The TRSP machine series is the new answer for fastener manufacturers looking to obtain wire with superior mechanical characteristics.

Available in seven different models from 6mm to 35mm.

The TRSP machines are also equipped with safety systems compliant with current regulations and are part of the broader Industry 4.0 initiative.

WELDING MACHINES

A full range of manual or automatic welding machines for wire drawing mills. Optional grinding wheel for burr removal.

EQUIPMENTS

To complete the production and due attention paid to the needs of its customers, Tramev produces and sells equipments for wire industry and derivatives:

- coils gripper
- hanks and swifts on drawing
- wire pullers
